

Bercow: Ten Years On survey for children and young people

Do you get help for your talking and understanding? I CAN and the Royal College of Speech and Language Therapists want to know all about it.

What you think matters! We have some questions we'd like to ask you. Your answers will give us important information.

What do we mean by talking?

When we say 'talking' we mean every different way that you tell someone something. This could be speaking, using signing, using pictures or symbols or with a communication aid.

What will we do with the information?

- We will use it to tell Government and other people about the help children and young people get for talking and understanding.

We don't need your name. We will read all the answers we get to find out the main things people say, so we won't use every single answer.

If you don't know the answer to a question you can move on to the next one. Fill in as many answers as you want to!

If you have any questions you can e mail us at bercow10@ican.org.uk or ask someone to do it for you.

Thank you!
